FOR ICE ARENAS**

NWR | **NORTH WEST RUBBER**
INNOVATIVE RUBBER PRODUCTS

North West Rubber is the largest manufacturer of recycled rubber products in North America, with over 50 years of leadership in producing innovative flooring and matting products that lead the way in strength, safety and sustainability.

NWR SportFloor’s vulcanized rubber flooring is the premium rubber surface of choice for ice rinks.

NWR VULCANIZATION EXPERTISE

North West Rubber specializes in vulcanization, the process of cross-linking polymers together under high heat and pressure. The result of this process is the ideal surface for today’s ice arena – a more durable product that is highly resistant to moisture absorption and wear and tear. NWR is the only manufacturer to offer vulcanized rubber flooring solutions in both recycled & virgin rubber technology.

	VULCANIZED PRODUCTS	POLYURETHANE BOUND PRODUCTS
Durability	Greater tensile strength, elasticity.	With continuous use, product will deteriorate.
Non-porous	Does not absorb any liquids, single piece of rubber.	Liquids absorb into pores between rubber particles.
Finish / Sealers	Not required.	Required to close pores from absorbing liquids.
Maintenance	Smooth top surface makes cleaning easy.	Porous top surface makes cleaning more difficult.
Cleanliness	Does not harbor bacteria.	Porous surface allows bacteria to penetrate & spread.

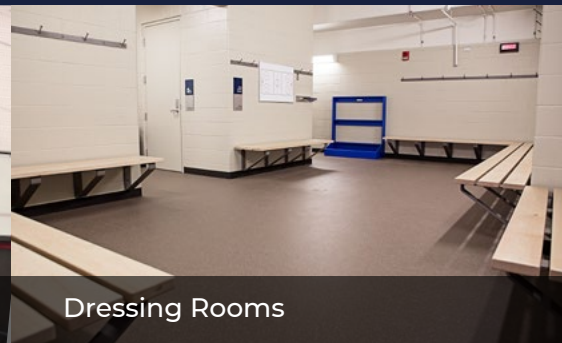

ICE RINK APPLICATIONS

High Traffic Areas

Rink Side

Dressing Rooms

Lobbies & Common Areas

Penalty Boxes & Team Benches

VULCANIZED RUBBER FEATURES & BENEFITS

Up to 70% lower lifetime cost than polyurethane bound equivalents

Tolerant to Humidity & Temperature Change

99.5% Microbial Elimination

Non-Porous / Waterproof

Cut & Dent Resistant

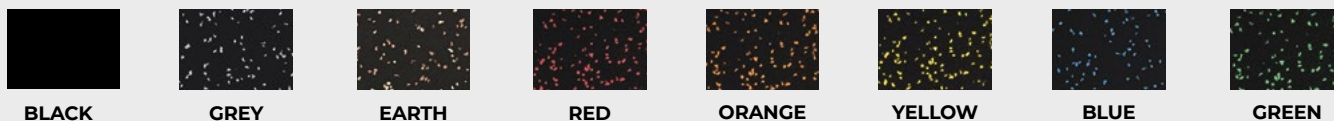

#1 in Tensile Strength

ENDLESS CUSTOMIZATION POSSIBILITIES

North West Rubber is #1 in precision colour customization and custom logo cutting. With a minimum order quantity of only 500 square feet, we guarantee +/- one Pantone® shade to match your desired colour. NWR uses ultrasonic cutting technology to create precise, inlaid flooring logos for a premium personalized look.

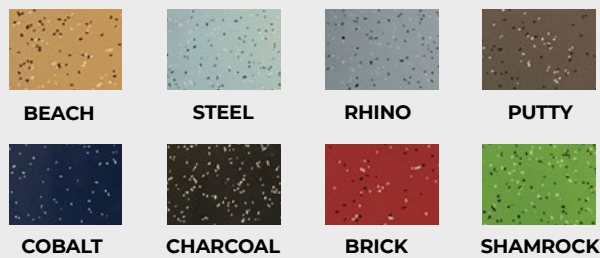

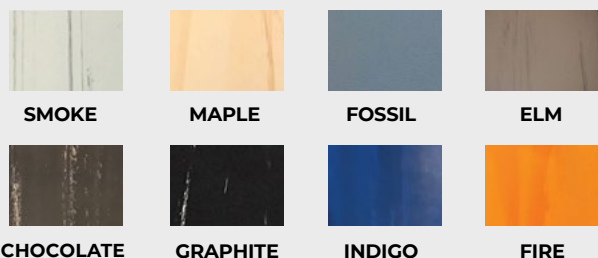

VULCANIZED RECYCLED RUBBER FLOORING

	TILES	MATS
Construction	100% Vulcanized Recycled Rubber	100% Vulcanized Recycled Rubber
Thickness	8mm, 10mm, 12mm	8mm, 10mm, 12mm
Size	0.6 m x 0.6 m (24" x 24")	1.22 m x 1.83 m (4' x 6')
Area	4 sq.ft.	24 sq.ft.
Finish	Smooth Top, Textured Underside	Smooth Top, Textured Underside

VULCANIZED VIRGIN RUBBER FLOORING SYSTEMS

	TILES	ROLLS
Construction	Dual-Layer Vulcanized Rubber	Dual-Layer Vulcanized Rubber
Thickness	3.5mm, 6mm, 8mm, 10mm	3.5mm, 6mm, 8mm, 10mm
Size	1m x 1m (39.4" x 39.4")	8mm, 10mm: 1.22m x 9.14m (4' x 30') 3.5mm, 6mm: 1.22m x 15.24m (4' x 50')
Area	10.75 sq.ft.	8mm, 10mm: 120 sq.ft. 3.5mm, 6mm: 200 sq.ft.
Finish	Matte	Matte
