

# ENDEAVOR VULCANIZED RUBBER MATS

North West Rubber's Endeavor mats are constructed with 10mm ( $\frac{3}{8}$ " thick, 100% recycled vulcanized rubber. Endeavor's smooth and uniform surface finish, vulcanized durability, ease of install and budget-friendly price make them the superior choice for fitness and weight room applications versus comparably priced 8mm ( $\frac{5}{16}$ " polyurethane mats or stall mat alternatives.

## FEATURES & BENEFITS

- 
**Durable & Long Lasting**  
 NWR's vulcanization process creates a dense rubber product which is highly resistant to abrasion and wear and tear.
- 
**Reduces Joint & Leg Stress**  
 Engineered to provide an optimal level of energy return to reduce strain to the feet, legs, and joints of users.
- 
**Easy to Clean**  
 Endeavor mats require minimal maintenance; simply vacuum or damp mop as-needed.
- 
**Anti-Microbial**  
 The smooth and poreless, vulcanized rubber surface is moisture resistant, absorbing up to 20 times less moisture than polyurethane bound recycled rubber mats and will not harbor bacteria.
- 
**Protects Equipment & Floor**  
 Excellent force reduction reduces the risk of damage to your equipment and floor.
- 
**Premium Appearance**  
 A more consistent and premium appearance for your fitness space versus polyurethane mats or stall mats with an optional interlocking format for a professional aesthetic.
- 
**Reduced Odor**  
 Lower odor versus stall mat alternatives.
- 
**Fast & Easy Installation**  
 Unlike most stall mats, Endeavor can be interlocked for a fast and easy, loose-lay installation.

## SPECIFICATIONS

<b>Mat Size</b>	4' x 6'
<b>Formats</b>	Straight Edge or Interlocking
<b>Thickness</b>	10 mm ( $\frac{3}{8}$ "
<b>Weight</b>	58 lbs
<b>Material</b>	100% Recycled Vulcanized Rubber
<b>Color</b>	Black
<b>Finish</b>	Unsanded
<b>Installation</b>	Loose Lay or Interlocking
<b>Country of Origin</b>	Canada
